# Thank You, Farewell

**2008-2009  
STATE  
OFFICERS**  
Unfortunately the 2008-2009 Pennsylvania FFA State Officer team's reign is done. We had some fantastic times and great memories with all of you. There is no doubt that we will never forget you or any of the incredible experiences from

the past year. We can remember huddling in a circle waiting for our names to be called to serve you at the 2008 State Convention. Now, we were the ones installing the new officers on June 11.

We all got the chance to get to know all of the state officer candidates. The nominating committee had a very tough job.

Every candidate had the talent and the ability to serve all of you.

Unfortunately, only 11 could be chosen. A word to those who did not, do not give up. Come back next year and try again because you all have what it takes!

Congratulations to our new state officer team and we wish you the best of luck this coming year. Know that this year will be over in a blink of an eye. You will grow and experience more than you could ever imagine so take every opportunity that comes your way.

Congratulations to all of our State Convention participants for a job well done. We had a blast spending three days with all of you. We are so proud of all of your accomplishments and growth in the last

year. Keep up the fantastic work because you all represent Pennsylvania very well!

Members, thank you for making this year the most memorable one for all of the state officers. You are the reason we would do this year all over again without even thinking twice. Our hearts are filled with love for not only the FFA but for all of you. Just because we are retired now does not mean that we are not here for you. If there is anything we can do for you let us know because we are still living to serve you! Once again thank you and we will miss you!

Love, your 2008-2009 State Officer Team.

Memories made,  
not forgotten...  
from our  
officer year!
